PROFILE

Final-year Information Technology student specializing in **Frontend Development** with hands-on experience building responsive web applications using **ReactJS**, **Next.js**, **TypeScript**, **Redux Toolkit**, **TanStack Query**, and **Tailwind CSS**. Experienced in integrating **RESTful APIs**, managing application state, implementing authentication and role-based authorization, and collaborating with backend services through **Swagger-documented APIs**. Passionate about developing clean, maintainable, and user-friendly web applications while continuously learning modern frontend technologies.

EDUCATION

- **Industrial University of Ho Chi Minh City** Oct 2022 – Present *Engineer of Information Technology*
Ho Chi Minh City, Vietnam

PROJECTS

- **Movie Booking** Aug 2026 – Present *Live Demo* ;—; *ReactJS • Redux Toolkit • TanStack Query • Tailwind CSS*
 - Developed a responsive movie booking web application with separate **customer** and **admin** interfaces using **ReactJS** and **Tailwind CSS**.
 - Implemented **authentication**, persistent login, **role-based authorization**, and **protected routes** for booking, profile, and admin pages.
 - Built movie listing, debounced search, filtering, trailer viewing, theater information, showtime selection, and interactive seat booking with automatic total price calculation.
 - Integrated **Swagger-documented RESTful APIs** using **Axios** and **TanStack Query** to manage authentication, movie data, seat availability, ticket booking, and booking history.
 - Developed an **Admin Dashboard** with CRUD operations for users and movies, including search, pagination, image uploads, and showtime management.
 - Implemented **Formik** and **Yup** for form validation, with responsive layouts, loading states, toast notifications, and confirmation modals to enhance user experience.
- **Shoes Store** Jan 2026 – Feb 2026 *Live Demo* ;—; *ReactJS • Redux Toolkit • TanStack Query • Tailwind CSS*
 - Developed a responsive e-commerce web application with separate **customer** and **admin** interfaces using **ReactJS**.
 - Built scalable state management using **Redux Toolkit** and **TanStack Query** for efficient client-side and server-state management.
 - Integrated **RESTful APIs** using **Axios** to perform CRUD operations, product search, filtering, sorting, checkout, and order processing.
 - Implemented shopping cart, wishlist, inventory tracking, order management, and product review features.
 - Developed an **Admin Dashboard** with CRUD operations for products, customers, orders, reviews, and sales statistics.
 - Implemented **Formik** and **Yup** for form validation, with responsive layouts, loading states, toast notifications, and custom modals to enhance user experience.
- **Phone Store** Mar 2026 – May 2026 *Live Demo* ;—; *HTML5 • JavaScript • Tailwind CSS • MockAPI*
 - Developed a responsive e-commerce web application with separate **customer** and **admin** interfaces using **JavaScript** and **Tailwind CSS**.
 - Integrated **RESTful APIs** using **MockAPI** to perform CRUD operations and dynamically render product data.
 - Implemented authentication, role-based authorization, persistent login, shopping cart, wishlist, and order processing using **localStorage**.
 - Built product search, filtering, inventory tracking, checkout, and order management features.
 - Developed an **Admin Dashboard** for managing products, orders, inventory, and exporting reports to Excel.
 - Organized the project using modular JavaScript architecture with responsive layouts and form validation to improve maintainability and user experience.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** ReactJS, Next.js, Redux Toolkit, TanStack Query, React Router
- **Web Technologies:** HTML5, CSS3, Tailwind CSS, Sass (SCSS), Responsive Web Design
- **API State Management:** RESTful API, Axios, Redux Toolkit, TanStack Query
- **Form Validation:** Formik, Yup
- **Tools:** Git (Branching, Merge, Pull Request), GitHub, Swagger (OpenAPI), Postman, Figma, Vercel
- **AI-Assisted Development:** ChatGPT, Claude, Codex – Prompt Engineering, Code Review, Debugging, UI Generation, Technical Documentation
- **Exposure to:** Node.js, Express.js, MongoDB, SQL, Docker, WordPress
- **Soft Skills:** Communication, Teamwork, Problem Solving, Self-Learning, Reading English Technical Documentation
